

## Bot Bot Transformers

Hey you...yeah you.....! have you ever wondered how things were robots? Well this is a story just for you and I don't know if it would end in a happy ending. Do you want to know how it all started, to the biggest thing to the tiniest everyday object come to life. Looks like this is your story so let's just start somewhere in Cybertron. Cybertron used to be a lovely planet where robots are also known as Autobots try to stay in peace and harmony until another kind of robot destroys it. Cybertron is a planet in outer space where the Autobot that are left live there. Cybertron is dark and cold. There are no humans, only robots. Optimus Prime is the leader of the Autobots and Megatron is the leader of the Decepticons trying to take over the lands and to be named emperor. The fight was epic punching and kicking Optimus Prime shot Megatron's half face. Optimus Prime was refusing Megatron to use the energy on power to take over the world. Optimus Prime ran to the Energon Canon and aimed it somewhere else he aimed it 100 - 4 A .K . Earth. Optimus Prime was punching back for the Energon ray to stop Megatron. But Megatron was pushing him to the button when he pushed him at the last second, zapping the big Energon cannon blasted into earth. It actually landed not on a house but somewhere in America in a mall. In the mall there was an Ice cream shop, archaid, candy shop, music store, food stand and supplies stores and more. Energon made all that stuff into transformers bot bots in what their purpose in life is, Oh you will see later.

There was a night guard in the mall for any out of the ordinary activity, his name was Dan. Dan was standing next to the food court when he found a good delicious juicy burger. Dan the night guard couldn't resist. He wanted to eat the burger and he decided to eat it. He was about to eat it until he chipped a tooth. He said, "what happened" then the little transformer transformed on his paml. As he looked around the mall he looked up and saw a plant that transformed to a bot bot in the second level of the mall. Dan turned his body and saw blue eyes glowing from the supply store. He eared footsteps as the footsteps kept getting louder and the louder the eyes kept getting closer. When Dan was able to see the object he noticed it was a stapler robot. The stapler warned Dan not to return and to never speak of the mall again. The stapler said "and if you do, your days will be finals days." Dan said "ok. I won't speak about this mall again."

As Dan was saying this more bot bot started to walk towards him and whispered "get out." when all the bot bot there was a plunger, flashlight and a gaming consult and more they were all around him. Then Dan screamed very loud, the entire Mall almost broke. Dan was too afraid he just ran away in his car and drove to his lovely small apartment. A bot bot flashlight came with him. Dan came home, boy he was up for a surprise. The flashlight bot bot transformed and scared him. He moved away from the town. Every bot bot was free and would do mischievous things. In the mall they would clog the toilet, they would skip rocks in a puddle of hot chocolate by the food court. Instead of a rock they would use a donut. Now you see their purpose in life. But what they didn't know their whole entire life was about to change forever.

Let's look up back in Cybertron, Optimus Prime defeated Megatron but what happened to everyone else? Bumblebee went in a mini escape pod and went to the same location where the Energon landed right in that mall. He put a recorded message he said this is my relatives you are now one of us go to Cybertron and live with peace and destroy Megatron once in for all. The bot bots were amazed until one of the science Alliance bot bot came with this announcement he said people from different tribes I discover more life forms of us. The entire tribe are going to build a time machine to go back to collect all that energon and bring it to this mall and we are going to transform it into a rocket mall bot bot ship. One of the bot bot from Teky team said, how are we going to do this with a short montage, 5 minutes later. We got all the energon we need. Put it in the electrical system in the mall, alright here goes nothing. CRASH CRASH BOOM ZIP ZAP BOOM CLASH Royale BOOM BOOM CRASH!!! Now they finally created the mall in to Bot Bot 2000. The mall can transform to two things, a mall spaceship and a regular big mall. They went into outer space well before they did one of them didn't know how to drive it Teky team were off to find their true destiny. They saw Cybertron ahead, they were circling around it the Greaser gang bot bot we're looking at the planet and they said it doesn't really look very you know fun there were about to land on Cybertron until a huge asteroid was about to brush them until a purple laser shot the asteroid. Who was that said Teky team they saw a very creepy spaceship they were wondering what it was so they decided to go inside. It was a creepy spaceship who was in there? it was Megatron telling them to join the darkside. They said no, it is not that much of our stiel. A bot bot responded to Megatron as you know dark destroys a person. We're just mostly like a funny story instead of national news. Poor Megatron just wanted some henchman and he got ideas. The way to get henchmen he put a tracking device on the spaceship one day he left to Cybertron and Optimus Prime saying this to the bot bot, welcome home my children you finally know your true destiny right before they knew it who was Megatron blasting Cybertron just like the old battle there was lightning and thunder!!! Around Cybertron it was war the bot bot had no clue what to do. What they did was planted a bomb and they went inside the Megatron ship and they put it in the electrical system. In five minutes it was going to explode. Warning: These following scenes contain big explosions the creators of this book decided to just give just for 5 minutes and just see the cool explosion

and back to the story, 5 minutes later **Boom** So the bot bot literally just saved the day.

The entire bot bot just celebrated Optimus Prime who didn't know what was happening. What they did was said what's going on here the bot bot said we're celebrating everyone else. Optimous Prime said what is celebrating? It's what you do when you are happy life or something like when you're on a special occasion. A bot bot said to Optimus Prime. if they could stay here for a couple of months Optimus Prime was thinking about this he said. One month later when Optimus Prime saw a big huge mess all over Cybertron he was angry. He very disappointed whoever did this he called every Bot bot that he adopted and he said who did this? All the bot bot responded we did. Optimus Prime couldn't take it anymore he now pronounced them kicked out and never returned to Cybertron again so they went to live back mischievous life to earth.

The end. Or was it!! So everyone thought through this why mischief is what is what we do no I'm tell us what to do where are bot Bots we live our life just how you want to they can live there blasting cool blasting shooting gun gun blasting life when we Molly just get respect then and Regis you know make mischief and Mischief is fun or like a piece a piece of gold but they're just a lump of coal so what do we have to do to get to get revenge I think I've got an idea said goon 2 alright guys this is what we do. back up in Cybertron things were really getting fun Optimus Prime ordered everyone to land at this mall bumblebee bulkhead you guys would take over the first level Jet Lee Maddox you take on level 2 while I going to have to do something very very bad all right what we are going to do is this we're going to have to join forces put away our differences we are going to get help from the Decepticons .and we're going to go down back to Earth well everyone was setting up a plan they got the bot bot Mall 2000and decided to surrender wink wink.A few moments later Optimus Prime was going to have a little talk with Megatron they said to Megatron what's happening around there were little problem Megatron denied and he said what's in it for me a lifetime supply of Energon I meant shed Megatron. A few moments later again donut Earth the bot bots are ready to take on Optimus Prime and Megatron and everyone else Everyone was ready to fight so everyone was going to destroy probably 50% of their planets or not so the body was big it was huge and it was very violent we can't show you the fight because of the creators don't want me to ruin child's child lives by showing them this clip but we could show him by doing something like this editing out all the violence conch Blast Burn the battle was on everyone was almost defeated the bobbitt's was we're going to do their plan the Papas were going to surrender they said to Megatron we surrender you can destroy us now Optimus Prime was going to blast them until dramatic paws

**boom**It was a bunch of scrap where every Bubba was standing or was there there was a huge Transformerbot bot But it wasn't just any thought but it was every golden Papa in a distance they now decided to levitate every Papa that was destroyed and make them into an old robot bots it's the bot Tron the real battle is on there was a huge bump some of the Bulls of the Transformers were almost loose until the final Showdown each got their power sword they were going to do well not just any door a robot duel on three 1 2 3 slice Optimus Prime had the last breath of his entire life a big huge hole through his body Optimus Prime was given Mercy but the Bob Botts denied Chrissy didn't denied they actually said hear you good leave us alone if you could just let us have a souvenir okay then but what about Megatron in fact where is he. all those pesky Autobots in the lane Kitty bot bots they're going to pay for all of this I need a beer or iced up King Decepticons get ready to fight every Decepticon went down back to Earth

**the end.**
