

My creative Narrative

4/10/20

When I was asleep, when I woke up in my room was new and my blanket was so soft. Then a robot comes up to me and brings me a coffee. Then I looked at my calendar. It was the year 2030 I was shocked. Then I looked out my window then I saw floating robot cars going really fast. Then I look in the mirror and I look really old. My skin is wrinkled and I am tall. I have a beard and black and gray hair. I have black eyes and I'm happy and nice. When I got out of my house there were big buildings. The house looked really cool shapes. There were a lot of really cool robots. The robot looked so shiny and beautiful. When I got in my house. In the bathroom when I wash my hands there are robot hands that are next to the sink that can wash your hands. When I got outside but then I forgot my iphone I went back. Then my iphone looks so cool. It has 21 cameras. Then I went back where I was looking everywhere everything looked so cool. everybody was looking at me so weird. I went to my restaurant. It looked better than Before but I saw new people. I wonder where my family is. But first I gotta get Used to stuff. I went home and asked my robot some questions then I called my robot alex. I called my robot Alex because I like it and Alex likes it. Alex was a big and strong robot. When I was walking on the sidewalk, I made a friend. His name was Bob. He was really nice. He had black hair. Then he woke up and opened the door. I said good morning. A few hours later we went to a restaurant. The food there was really good and I was really full. After that we went to a park. It was really cold. We walked for 2 hours. A month later I am getting used to stuff. But I got to find my family. First I'm going to find my brother then my mom and dad but not yet. I went home and asked Alex where my family was. Alex said my dad died. a day after Bob said did you wake up and you are in the year 2030. Then I said wait did you get the same thing then he said yes. Him and me asked a lot of questions. He taught me a lot of things. When Bob woke up in the year 2030 that was a month ago so he knew a lot of things. When I got outside it was really cold. 2 days later it was really hot so we went to the zoo but the zoo is now called lade so we went there. I saw a lot of really cool animals like colorful snakes and birds. When we were done going to the lade I went to Bob house he taught me how to play some games. After that we went swimming because it was a really hot day then I went to my house. It was a fun day then I went to sleep. When I woke up I still wanted to sleep. I got to my house then went to Bob's house I rang the doorbell to see if he was still asleep. Then I rang it and he doesn't know where my family is. I was really sad. Me and Bob are going to find my family. I was so happy. I ask this guy you know where is my family he said they live in linda vista we went there we look every we look at the park and we nok on some few doors to find them. But there was no clew so we went back to Bob house. I was really tired so I went back to my house. I drank cold water from the Fridge I went to my bed and slept the next day so I just stayed in my house because I was really tired. I watched a movie. It was really fun there were some sad parts and some happy parts Bob went to then we watched the movie together. The next day we gotta find my family. When I woke up I went to Bob house. I tell Bob that we gotta find my family. When we went outside we asked this nice man where the man said I know where they are. The man said they live around here the man said the house number is like 608 we look everywhere. There were 6 more houses left. We check every room but there is one more room. I ask Bob do you think this is the right one. He said yes I nok on the door someone opened the door it was my mom! But she didn't recognize me for a few seconds. We were so excited and happy. I thank Bob for helping me. We went inside and saw my brothers. I was really happy. A week after that I tell them where the restaurant is everything starts to get better and we live a happy life.
