

The Magical Adventure

Once upon a time I was reading my favorite fairy tale Rapunzel . I looked up in the sky and there was no cloud in sight . I was in San Diego California, On my family vacation. In a blink of an eye I was super high up in a tower With Rapunzel by my side. She said let's play little sister I got confused but I just did what she said she just wanted to Paint I said okay. I had long hair just like her and I had flowers. I had a long pink dress. I think about all the things she had just said. I think she thought I was her little sister. Rapunzel said come on let's go I said where she took me down from her castle she used her hair as a ladder. She ran into this cave where there were vines hanging down from the cave. We went through the vines, it was kind of spooky at first But I enjoyed it. On the other side there was a big Forest with rocks and another there was a river With a Swan in it. The swan was elegantly swimming in the water with their ducklings. One duckling went drowning, I rushed over there And picked him up. He Shaked his wings and started swimming. He was a light brown little Swan. The swan started Swimming super fast and Rapunzel said "hurry hide up in this tree I used her hair to climb up," I said "why" she said "shhh". The alligators, what do you mean alligators. The alligators are evil, but we need to go help the swans. No he can't if the alligators find us they will trap us. Why I asked because we are looking for The Gem too. We have been looking for the gem for

many years. I think they're gone now. I am so glad they're gone. Come on, follow me this way. where the crocodiles were coming. I see something. It's just a Pony come on follow me. Wow so pretty she has cream colored blonde braided hair with flowers in it just like us. How cute maybe you can ride On the pony. It seems like you were Light enough. I guess so I'll put you up there. Thanks we took a break on Some rocks. The rock slowly opened. I screeched while it was opening. The gem a slam the door. The gem was like a shimmer in the night Stars, my jaw is wide open as I and Rapunzel' slowly approached. There's a map there is more than just one Gem. You found the red. one there's more Gems Rapunzel shut my mouth, Rapunzel said the crocodiles remember. "oh yeah I forgot but it seems like there are red orange yellow green blue and purple gems". Me and Rapunzel looked around the cave. but there were no gems In sight. Me and Rapunzel looked even harder. no gems inside. finally! there was lava I looked over I it was the orange gem me and Rapunzel got so excited we screamed but the crocodiles came Close me and Rapunzel heard them they were all outside of the cave we were as quiet as a mouse even more quiet Rapunzel looked over where the sunflowers were in the cave tiptoed very very slow and quiet .so she found the yellow gem. gave each other at are high five. so that the crocodiles couldn't hear us. Then I looked over where the green grass was. I said I saw something shiny and green and my Whispering voice. I found a green gem .yay said Rapunzel. I think I know what's going on. I said what ! I think the colors of the gem now it make sense so I think the blue

Gem must be in the water .Yeah but the crocodiles got closer. you can hear them making their grumbling growling noises snapping their jaws. I got scared. so what's with the purple gem. The purple gem is at the very top of the Cave. shining down on us. we grabbed The purple gem .But the crocodiles found the door!The door opened and we heard a screeching sound as it opened. the crocodiles came. in to capture us. in a cage I got so scared. Rapunzel brought out something in her pocket. I was So confused by millions of keys. I said why are you bringing out keys. to get us out of course. Rapunzel said that makes sense. Good thing the crocodiles are eating. hey let's get out of here. I saw her put in the key twist a little bit. and I said about a thousand more to go. and that happened over and over again until we found the right key. Yay you found the right key. now we can sneak past those crocodiles. We need to go in Disguise. Hurry let's go back to my castle. I can make you and me crocodile costumes . The crocodiles heard our footsteps .Thump Thump the crocodiles snarled as they looked towards the distance. with his other crocodiles. I think I can find them. when they were in the water swishing their tails back and forth splashing the water. all over the place me and Rapunzel could hear. There is no chance for us toThe castle. In enough time Pascal came out from the trees and landed on the crocodile's nose, the crocodile messing around with Pascal and the other crocodiles they all got mad at each other so they gave up. to the castle all things to Pascal so Rapunzel Made the crocodile costumes the crocodile costumes with mean gnarly I will leave in an ugly green

with an ugly brown eyes. I would never want to be a crocodile. I said, "I feel like a crocodile," "me too," Rapunzel said. Let's go spy. Tip toe tip toe tip toe. hurry behind this bush. Me and Rapunzel hide behind the bush. The crocodiles have the gems. Booby trap Rapunzel Shout's She rolls out of the way. I got Trapped in the booby trap. It was a net booby trap. I got lifted up in the air. The crocodiles captured me in the cage again. They asked me "how does this work?" I said try to put it in a rainbow. They first started off with red then orange then yellow then green then blue then purple. Then I disappeared I closed my eyes and I open them back up and I was back reading the book Rapunzel

The end.
