

10 years ago There was a place called Wolf Land.It was made for training Wolves to protect their Colony. It was hard there. Most of the Wolves would fight each other.I live in a different place close to the training area.It was made right when I was just born.My name is White Fang.Now I'm old enough to train there.I got to train for 10 days before the bad stuff happened.Another colony was trying to take over ours.And I had to fight.My younger siblings found a safe spot.All my friends also had to fight.Before the attack happened this place used to look very Beautiful.Everyone older than 12 had to fight.12 years later after the attack,the place looks as beautiful as it was before the attack Then I hear a big noise, all my friends are looking to see what it is.While they were doing that I was making sure my younger siblings wouldn't get hurt I put them in a safe spot. Then I saw that all my friends were captured by something that stands on it's two legs.I jumped on it and bite it as hard as I could but it got to me. It put me in this weird thing I don't know what it is.All my friends were trying to get out .Then I got put in a thing that moves but I do not know what it is.Then I heard The weird thing saying I got them. I do not know what it was trying to say.One of my friends were able to get out and they told me to use my claw to get out so I did that and I got out. All my friends were out but we are moving in something that We've never been in before.I bit the driver and the other thing grabbed me but one of my friends bit it and then the Weird moving thing went crazy then the back thing open I never knew what it was but my friends and me jumped out.The weird thing crashed into one of the trees.But I saw one of those weird things jump out before the Moving thing crashed."I'm pretty sure That thing is dead"I said. "Jack are you okay?"I said."I'm ok" Jack said."Michael are you okay?"I said."Yeah I'm okay just we're far away from home"Michael said. That weird thing stood up and started chasing us so we ran."ahhhhhhhhhhhhhhhhhhhhh"Everyone said.I jumped back at the thing and I think I knocked it Out.I'm far away from home I am very hungry and hurt at least I have some spare food that the weird thing had. "It is Meat"Everyone said.Luckily all of us knew how to find a place to sleep. We dug a hole in the ground and we slept."ahhhhhh!!" Michael said."What is it Michael"I said.A A A Grizzly bear!!!!!"run!!!!!!"I said.We all ran.I'm just hoping my younger siblings are okay.I tried talking to the grizzly bear but still running."Please don't hurt us

we're just trying to get home" I said. "mmmm" The grizzly bear said. "Please let us go" All my friends said. "ok" The grizzly bear said "but only if you do something for me". "ok Anything for my friends and me to go back home" I said. "go get me some meat and all of you can go" The bear said . I saw a pig run by so we ran after it "Here you go Bear" All my friends said. we ran for 5 miles. We saw the colony. "HOME!!!" we all said. we all got home. A year after that happened ,all three of us were granted to be leaders. Now we are all leaders. Now we know what those weird things are they are people and the weird thing that was moving around was a car.

THE END.
